TOPICS

Entertaining, sometimes provocative, **always** interesting and interactive, Holly G. Green speaks on a variety of topics.

Overwhelmed by Complexity? Get Rid of Strategic Planning & Get Agile

You can't afford the high cost of "do-overs" or the higher costs of doing nothing. Complexity is escalating, change is nonstop, and just running (not necessarily in the right direction) has become commonplace. You have to embrace ambiguity, make disruptive choices, challenge assumptions, reinvent customer relationships, and build operating dexterity all while informing, inspiring and engaging your organization.

> **Holly will share with you how to master complexity and get agile.**

Are You Swift?

Can you move fast with focus and flexibility in today's rapidly changing environment? Or do you constantly struggle just to keep up? Using ideas, tools, and techniques from her best-selling book, **More Than A Minute™ - How to Be An Effective Leader and Manager in Today's Changing World**, Holly reveals counterintuitive insights that market leaders use.

> **Holly will show you how to get crystal clear on winning, define what you need to do to get there, and how to pause and focus on the right things.**

Reboot & Reload: Think Differently, Innovate & Win

Your biggest threat today may not be new technologies, changing markets or unseen competitors. It's what you are absolutely, positively sure is so. In today's world, unlearning has become just as important as learning. Uncover the "thought bubbles" floating around in your head that keep you stuck in the past and learn how to trigger your brain to increase innovation so you keep winning.

> **Holly will teach you how to think differently day to day to innovate AND stay focused to get the results you want.**
